### **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1, 4, 5, 6, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Scheiterlein (US/2,824,552).
- 3. Scheiterlein discloses a "roots-type" supercharger engine having a direct drive with the engine. Engines of this type are common in Pro street hotrods. The compressor is constantly compressing as a function of engine RPM. The cylinders will be filled by the air compressor to the maximum extent the configuration allows. Regardless where the engine stops the engine is in a suitable position for subsequent direct starting by conventional electrical starter.

## Allowable Subject Matter

4. Claims 2, 3, 7, and 9 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure is listed in attached PTO-892 and consist of various starting systems.
